Grammar Gremlins

Introduction

They jump out at us in countless middle school essays. They lure our red pens to make endless circles and bold question marks. Occasionally, they even taunt us to create angry holes in a student's notebook paper! At the worst, they can sometimes cause us to lose sleep and wonder, "Will my students ever transfer my instruction to their writing?" What are "they"? We have chosen to call them gremlins – grammar gremlins. This species consists of errors that are repetitive and widespread among the student population.

Now, before you consider this just another grammar handbook, know that this book does not focus on the parts of speech or parts of sentences. We do not provide lessons on things such as gerund phrases or proper nouns. Instead, we take a student-friendly approach to correcting problems like *its* versus *it's* and when to use the semicolon. Some may call this "usage" instead of grammar, but to us, it is all a part of our complicated language which has its roots deep in the world of grammar!

While every grammar and usage mishap is not taught in this book, we have chosen those that have been monumental and overexposed in our own teaching experience. This book is designed to make students laugh a bit as you address the little grammar gremlins that often plague their writing. Each lesson begins with an introduction page. At the beginning of the week, the grammar gremlin is revealed, and throughout the week, the focus is placed on finding it, correcting it, and eliminating it forever! A practice page and a quiz is provided for each week.

Now, what makes this book unique and effective is the repetition involved. Traditional grammar books move from one grammar lesson to the next. The first lessons are quite often long forgotten once students reach lesson four or five. In this book, however, once a gremlin is identified, students continue to face it in quizzes. There is constant review of the previously studied gremlins, and we all know that repetition is the key to learning!

Feel free to "play-up" the gremlins in your classroom. For example, make "gremlin" comments such as "Gremlin alert!" when you find one in student writing. Challenge your students to find gremlins in print or on public signs, and create a bulletin board to showcase these pesky little monsters. Have students peer edit looking for gremlins! Just have fun with it!

What is a Gremlin?

If you look up the word gremlin, you will see a definition like the following:

An imaginary creature that damages machinery

Or

A tiny mischievous imaginary being that is blamed for faults in tools, machinery, and electronic equipment

This year, we will refer to pesky writing mistakes as “gremlins”. Think of them as mischievous, yet friendly little monsters who just love to “mess up” your grammar!

You’ll see make-believe stories about gremlins throughout these lessons, and hopefully this will make things a little fun.

Also, once we learn a “gremlin”, we will not leave it for good. Instead, we will continue practicing with it all year. This means that a “gremlin” we cover in week one will be on our last review test! This repetition will help us eliminate all of these pesky mistakes once and for all.

Interactive Notebooks

What are interactive notebooks?

An interactive notebook is simply a place to record information and process ideas. It is a notebook that becomes sort of like a personalized textbook. It has a table of contents at the beginning so that students can always find reference to what they have learned.

What kind of notebook do I need to use?

Most teachers require their students to purchase the composition notebooks. These are sturdy, pages do not tear out easily, and they will hold up for years.

However, with that being said, we use five subject notebooks in our classrooms. The main reason we do this is because we teach ELA, and as all ELA teachers know, it's like teaching ten subjects all in one! We like the five subject notebooks because we can divide it into sections. Section one is where we have our *Grammar Gremlin* lessons. Each section has its own table of contents.

You may prefer to use the composition notebooks, and that is totally fine! Both types have their pros and cons. All of our pages are made to fit a composition notebook but will also fit perfectly in a spiral one.

What kind of glue do I need to use, or can I use tape?

You really need to use the Elmer's school glue. The glue sticks seem like a natural choice, but the truth is that they just do not bond the paper permanently. You will have to make sure your students know and follow the procedures for gluing, which needs to be – small dots, one inch apart. They do not need to use long strands of glue. Of course, you can always use clear tape instead of glue!

Why use interactive notebooks?

Interactive notebooks are great because they keep kids involved in the learning process and give them a sense of ownership in the lessons. Plus, when they are finished, they can keep the notebooks for years to come as a reference. Students take pride in creating their own notebooks, and involving students in each lesson helps to hold their attention!

Getting Started

- Gather materials. Students will need a notebook, glue, scissors, and art supplies like colored pencils, markers, crayons, gel-pens, highlighters. We allow our students to use whichever of these they want or even a combination. This is the part that they like the most.
- Leave four blank pages at the front for your notebook or section for the cover page and the table of contents which are included in this packet. We set up this section of our notebooks in the first week of school by gluing in these pages.
- Explain to your students what a gremlin is and discuss why you will be calling the problems in writing “grammar gremlins”. You can use our page titled “What is a Gremlin” to help you explain.
- Each Monday, introduce the “Gremlin of the Week”. Copy the mini-lesson, and pass them out to students. You can either pre-cut them or have students cut them to glue in the notebooks. Just cut the lesson out, and remove the excess white paper around it. All lessons will fit nicely in a composition notebook. These lessons are student friendly and include tricks to help students learn! Have the students glue the mini lesson on the left side of a page.
- After you teach the lesson and make sure all students understand, it is time for them to respond. On the right side of the page, use the foldables and cut-outs provided in this packet to reinforce the lesson. If you feel that more is needed, you may allow students to be creative by drawing a picture, making up a rap song, creating a poem, or something else in response.. Because time is limited and precious in our ELA classes, we only provide at the most five or six minutes for the Gremlin of the Week creative response.
- The practice pages provide a short assessment to make sure students have understood the lesson and can apply what they have learned. These pages can be done in class or assigned for homework.
- Continue to review the week’s gremlin until Friday. On Friday, give the quiz. There are quizzes provided for each Grammar Gremlin.

What's the deal with the gremlin?

Our little gremlin appears in each lesson. Facts about his gremlin world are included in all of the mini-lessons. This helps keep things interesting and will give your students something to giggle about! We have a gremlin word wall in our classrooms, where all of our gremlins go after we learn them each week. Also, after a gremlin is taught, students must be careful to edit their writing to make sure any "gremlin" we have covered is used correctly. For example, if we have already covered the semicolon as a gremlin, students are to make sure they use it correctly in their writing. If they do not, "GREMLIN ALERT!" is written right on their paper. This is great for writing instruction because the teacher can ignore the mistakes that have not been covered yet and only focus on the ones that have been taught. Students build their "editing toolbox" as the lessons progress each week.

You can add to these lessons!

Create additional handouts for students to practice. Provide more homework with the gremlin of the week by having students write sentences.

Spiraling assessment is also a component!

After every five gremlins, there is a review test. These tests reviews past weeks' gremlins and assess all that have been taught up to that point. Study guides are provided as well. This is the best part about this resource because as all teachers know, repetition is the key!

Make it fun!

Monsters are very popular these days. We buy monster stickers and reward students with them when they make a 100 on a gremlin quiz. We make a Gremlin Wall and hang cute little cut out monsters with each lesson that we learn. We even bought the cutest little squishy monsters at the Dollar Tree, and on Mondays when we introduce the lesson, we toss these little fellows around. Whoever catches it either answers a question about the week's gremlin or uses it correctly in a sentence. Kids love this!

Grading

It's up to you as to how often to grade the notebooks. We are including rubrics that we use to periodically check notebooks.

It's vs. Its

It's always means it is or it has.

The apostrophe in it's takes the place of the missing letter.

It is = it's ~ Here the *i* is missing. **It has** = it's ~ Here the letters *h* and *a* are missing.

It's been a long time since the gremlin drank coffee without lemon. (It has been a long time...)

It's time to get a trim when a gremlin trips over its own fur! (It is time to...)

Test it! Try it is or it has in your sentence. If it sounds right, use it's. If it sounds weird, use its.

Its is a possessive pronoun.

Use it to show possession. If something belongs to "it", use *its*.

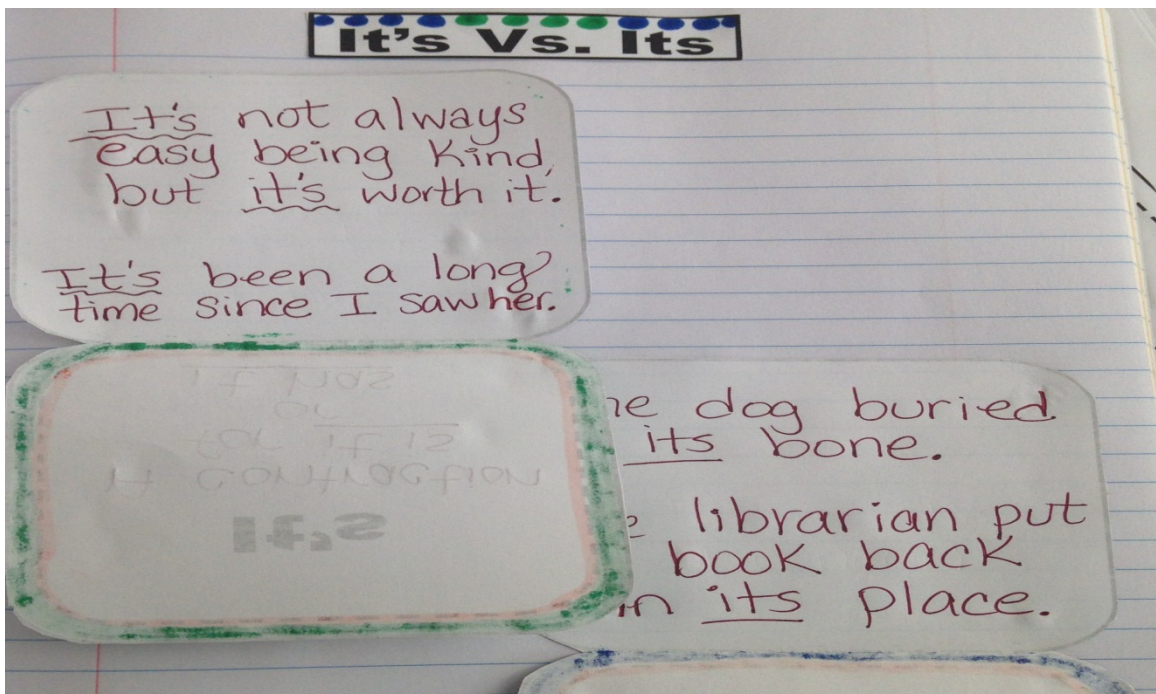

Ex. its bone, its house

While the gremlin was going crazy about its lost pet hippopotamus, its mommy was making a lost and found poster on the computer.

Practice (Choose the correct word in the parenthesis.)

1. The gremlin ate (it's its) favorite lunch- a spinach and chocolate sandwich.
2. The gremlin said, "(It's Its) almost time to walk my pet mouse."
3. After working in the garden, the gremlin washed (it's its) feet.

It's vs. Its Practice

Directions: For numbers 1 – 4, write *its* or *it's* on the lines. For numbers 5 – 6, write two sentences of your own using *its* and *it's* at least one time each. Keep the gremlin nightlight story going. 😊

1. _____ a best kept secret.
2. Did you know that each and every gremlin keeps a night light in _____ room because gremlins are secretly scared of the dark!
3. Although _____ been centuries since a gremlin has seen a nightly monster, they all keep nightlights handy.
4. _____ quite surprising to most people.
5. _____

6. _____

13. The kitten is busy chasing its tail.
14. I think there is little chance it's going to rain today.
15. The pizza slipped out of its box and plopped onto the floor.

Your vs. You're

You're stands for you are! The apostrophe in you're takes the place of the missing letter *a*.

You're in big trouble, Mr. Gremlin if you do not stop tapping your claw on that desk!

It is not acceptable to use your when you mean you are.

Test it. Replace the word your with you are in your sentence. If it sounds right, use *you're*. If it doesn't sound right, use *your*.

Your is a possessive pronoun. If something belongs to someone, use *your*.

It's **your** prerogative if you choose not to believe in gremlins!

Practice (Choose the correct word in the parenthesis.)

1. The gremlin looked inside (your you're) book bag when you weren't looking!
2. The gremlin said, "(Your You're) not as clever as I am!"
3. "I bet (your you're) going to miss all of (your you're) pencils!" he chuckled while zipping the bag again.

Foldable View

Make sure students only glue above the dotted line so that the bottom part of the shape can be lifted. Students will design the back of the T-shirt on the paper underneath.

Too vs. To

TWO = 2

TOO

The word *too* means *also*. *I want to go too. I want to go also.*

In addition, the word *too* means *extra* or *very*.

It is too hot. It is extra hot. If you mean an extra amount of something, you need an extra o to make the word too.

For example, look at this sentence. *The gremlin is too lazy.* (It is extra lazy, so I use an extra letter o to spell it too.)

TO

To means the direction that you are going. It is where you are going to or what you are going to go and do.

To matches the spelling of *go* and *do*.

Practice (Choose the correct word in the parenthesis.)

1. The gremlin lost his toy mouse and his favorite monster book (to, too).
2. The gremlin took her friend (to, too) pick dandelions.
3. While there, they picked (to, too) many weeds.

Foldable View

Make sure students only glue above the dotted line so that the bottom part of the shape can be lifted. Students will write sentences on notebook paper underneath.

Using TOO when it means EXTRA

Pretend that you are looking through the binoculars at one of the following settings: a jungle, the ocean, a forest, a trash dump, or a cruise ship. Inside the binoculars, use the word *too* as you describe how things are extra big, extra beautiful, extra majestic, etc. Cut out the shape and glue only under top part of shape (above dotted lines) Lift the flap and underneath, write two sentences using the word *too*.

Accept vs. Except

Accept means to receive willingly or to hold something as true.

I accept your apology. I accept the fact that you tried.

THINK: **Accept**

List some things you would want to **A**ke or accept.

Except means apart from or excluding. Of course, if it is used as a conjunction, it means *but*.

I like all peas except green peas.

I wanted to go, except my mom wouldn't let me.

THINK: **eXcept**

Which things would you want to X out or get rid of?

Practice (Choose the correct word in the parenthesis.)

A Lot ~ It is two words!

You should never use *a lot* as one word. This is wrong!

A lot is two words – always.

a (space) lot

Never write *alot*. *A lot* is two words! Always! Every time! Period! Also, the words *a lot* are often overused. In the box below, write some other words that you can use instead of *a lot* in order to avoid repetition in your writing.

Practice: Write a sentence containing the sets of words in each number below.

1. gremlin, hide, a, lot

2. gremlin, crayons, a, lot

Foldable View

Make sure students only glue behind the dotted line so that the “cup” part can be folded over and students can continue their list on the notebook paper underneath.

Some other examples:
a great deal of
a great quantity of
a ton
a large amount of

What else can you write instead of *a lot*?

Cut out the shape. Glue only the part behind the dotted lines so that the flap can open and you can write more under the flap.

A lot

Let's pretend that once upon a time the words a lot were spelled as one word, but for some tragic reason, the words were separated. On the notebook paper below, write a short story explaining what happened to cause this division. Be creative with your story.

KEY

Practice: Write a sentence containing the sets of words in each number below. **SAMPLES PROVIDED**

1. gremlin, hide, a, lot

Gremlins spend a lot of their time hiding from humans!

2. gremlin, crayons, a, lot

Before they hide, gremlins grab a lot of crayons so they can color in private.

Directions: For numbers 1 – 3, use synonyms for the words a lot. For numbers 4 – 5, write two sentences of your own using the words *a lot*. Make sure you write it as two words.

SAMPLES PROVIDED

1. Scads of gremlins like to wear wigs.

2. Changing their hair color brings them tons of joy.

3. Whenever you see a store that sells wigs, chances are, hordes of gremlins have shopped there.

4. A lot of gremlins want bright colored wigs.

5. So, a lot of manufacturers of gremlin wigs never even use dye that humans find normal such as brown and blonde.

They're, There, Their

They're

The word *they're* means *they are*. The apostrophe takes the place of the letter *a* in *are*.

Test it! Try saying *they are* in the sentence. If it sounds right, use *they're*. ***They're too tired to shop.***

There

There means a place, like here. If you take the *T* off of the word, you have the word here.

Test it! If you can replace the word *here* in the sentence and it sounds right, 95% of the time, you will use there. ***I want to go over there.***

Their

Their shows possession. If something belongs to them, use *their*.

Remember this: an heir is someone that inherits your possessions.

So, if you're showing possession, use their. Another trick that may help you is to look at the spelling of the three words. Notice that only one word has the letter *i* in the spelling. Imagine the dot on top of the i as an eyeball!

their house

their shoes

their party

house, shoes, party belong to them

Add eyelashes! 😊 Now, this “i -ball” is watching over its possessions! If there is no possession for the i to watch, do NOT use *their*!

Practice (Choose the correct word in the parenthesis.)

1. The gremlin family was packing for a trip to (their, there, they're) favorite vacation spot!
2. (Their, There, They're) leaving at midnight on Wednesday.
3. As soon as they get (their, there, they're), they will check into (their, there, they're) room and head to the pool!

Use the **i**r when something belongs to them.

All around this “eye ball” write things that can belong to “them” like “their socks”, “their problem”, etc. Remember, the “i-ball” is looking for its belongings. One has been done for you.

I or me?

Many people are confused about when to use *I* and when to use *me*.
I and *me* are pronouns, which means they “stand in” for nouns.

Pronoun = “stand in” for a noun

Do you know which one would fit in the following sentence?

My friends and _____ like to ski.

A “stand-in” (like *I* or *me*) can be confusing when it is paired with something else (like *my friends*). But the “stand-in” has to make sense all by itself. The trick is to hide the “something else”. So, if we hide *my friends*, then figuring out the “stand-in” becomes much easier. Consider one (*I* or *me*) by itself. You’ll choose the right one every time.

I like to ski.

Me like to ski.

It is obvious that you would say *I like to ski*. Therefore, the correct answer is *I*. Try the next one.

The teacher gave my friend and _____ some candy.

First, hide the “something else”, which in this case are the words *my friend and*. Now, which one is correct?

The teacher game me some candy.

The teacher gave I some candy.

Practice – Choose the correct word in each set of parentheses.

1. “I love this picture of you and (I, me)!” the gremlin shouted.

2. “Yep, me too!” his friend shouted. “You and (I, me) can show it to our class tomorrow when we go on our field trip to the slime factory,” he continued.

Affect or Effect?

Affect

Affect is mostly used as a verb. It means *to influence, to transform, or to change*.

Smoking will affect your health.

Verbs show action, so you only use *affect* when it is an action in the sentence. If you're not sure if a verb should be used, try using another verb in place of it, and see if it sounds right. If it does, chances are, you need the word *affect*.

Effect

Effect is a noun. It means *a result, an outcome, or a consequence*.

The effects of smoking are very harmful.

Also remember to use the word effect if one of the following words is right before it: *into, on, take, the, any, an, and*

There is a trick to help you remember that *affect* is a verb and *effect* is a noun. Remember the word RAVEN. A raven is a large, black bird of the crow family, but for this purpose, it will be a way we can remember the difference in *affect* and *effect*.

Realize **A**ffect = **V**erb **E**ffect = **N**oun

Correct usage of Quotation Marks in Dialogue

Quotation marks show what a person is saying. So, only use them around the words that he/she is actually saying.

“Jim, let’s take a stroll down to the pond,” Gremlin Mike suggested.

Use a comma to separate the dialogue/quote from the rest of the sentence (this includes the “tag” – words like *said, asked, shouted, etc.*).

The teenage gremlin turned to his dad and yelled, “Did you see that alligator? It was huge,” as he walked toward the pond.

When a direct quote comes at the end of the sentence, put that end mark inside the last quotation mark.

Gremlin Mike walked to the edge of the water and called out, “Hello, any gator out there?”

Put quotation marks around a direct quotation (the speaker’s actual words).

However, do not put quotation marks around indirect quotations (words that are retold by someone else – words that are part of the story line).

Jim asked Mike if he wanted to wade out into the water. “I would love to,” Mike quickly answered.

Capitalize the first word in the quote, even if it is not the first word of a sentence.

In the late evening, Jim yelled, “There’s the alligator over there!”

When writing a conversation, begin a new paragraph with each speaker change.

“I’ve got him,” Mike shouted. He was standing on the spine of the gator.

“I’m coming too,” Jim replied.

“Let’s take this gator on a trip around the pond,” Mike suggested.

“Are you ready little fellow?” Mike asked the gator.

Principal vs. Principle

Do you know the difference in nouns and adjectives? If you are thinking that a noun is a person, place, or thing and that an adjective modifies (describes) nouns, you are right!

The word *principal* can be used as both a noun and an adjective. The word *principle* is only used as a noun – NEVER an adjective.

So, the first the step when deciding to use *principle* or *principal* is to decide if the word is used as a noun or an adjective. If it is an adjective, it is **ALWAYS** going to be spelled as **principal**. In this case, it means *main* or *chief*, not like an Indian chief but as in most important or main.

Example: The chief/main ingredient in potato soup is potato.

The principal ingredient in potato soup is potato.

If it is a noun, it can be spelled as *principal* or *principle*.

The **principal** is the leader of your school. An easy way to remember this is to think about the **principal** being your **pal**. A pal is a **person**!

So think principal = your pal

A **principle** is a law or code of conduct. Your principles are your beliefs; they are **things**.

So think principle = thing!

So, here is what you need to remember:

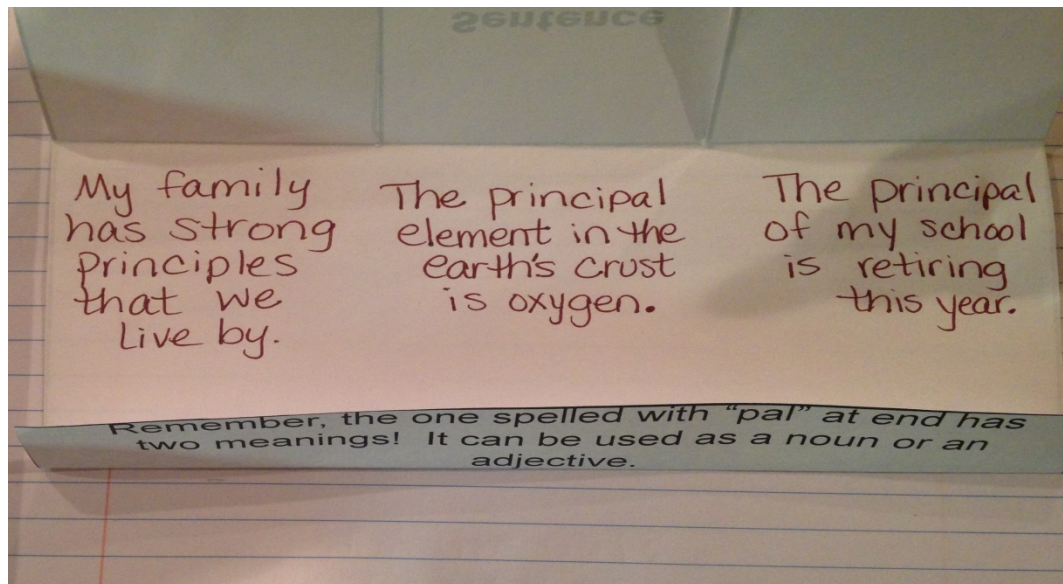

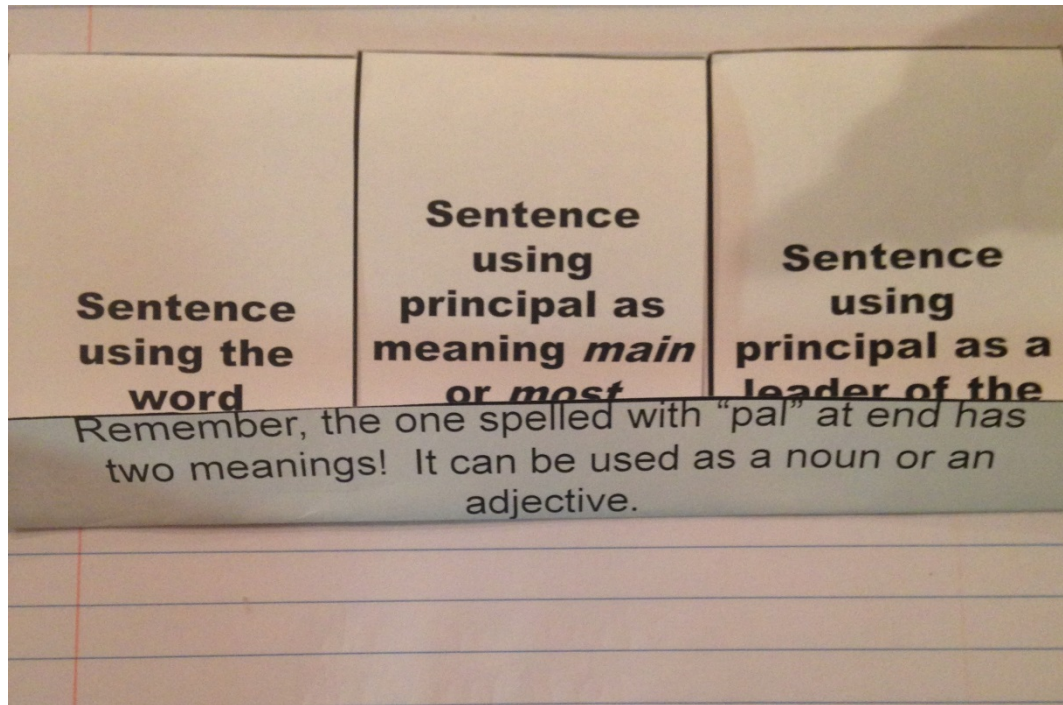

Principal = leader of your school or main (This one has 2 meanings.)

Principle = law or code of conduct

Singular Vs. Plural Pronouns

You know that a **pronoun** is a word that is used in place of one or more nouns or pronouns. It can be called a “stand-in”. The **antecedent** is the word (or group of words) for which the pronoun stands. **A pronoun must agree with its antecedent in gender and number.** People are often careful and know when to use pronouns like *she*, *him*, and *its*. Just beware of those tricky times when the antecedent can be male or female. When this happens, you can use both forms by writing *him/her*.

Each student had his or her homework.

Did you know that it would be wrong to write the following?

Each student had their homework.

This is wrong because *each* is singular and *their* is plural.

Pronouns must match their antecedents in gender and in number. In this case, the pronoun does not match the antecedent in number because *each* means one and *their* means more than one.

Pronouns like *anybody*, *none*, and *many* are very confusing. Some of these words need singular pronouns and some need plural. Study the chart your teacher provides to learn the difference.

Practice: Circle the correct word in parentheses.

1. Both Gary and Gilly wanted to tell the same joke to (his, their) friends.
2. Neither one of the boys wanted (his, their) brother to arrive at school first.
3. Both rushed to eat (his, their) toe-jam slathered toast for breakfast.

Lose vs. Loose

The words *loose* and *lose* are mixed up in writing all of the time. For some reason, many people write *loose* when they really mean *lose*.

Loose

Loose is an adjective. It is used to describe something that is not tight.

The window is loose.

Cruz has a loose tooth.

There is a chicken running loose in Mrs. Cook's classroom.

Lose

Lose is a verb. It means a loss of, or to miss.

You should not lose your book bag.

Don't lose your keys.

I never lose my patience.

A trick that may help you remember the difference between the two is to think of this – a LOOSE GOOSE. The words rhyme, and they both have two letter Os.

Apostrophes

Often, people place apostrophes with any and every noun ending in *s*. This is wrong.

Use an apostrophe when you write contractions. The apostrophe is always placed in the spot where the letter(s) has (have) been removed.

The Gremlin **couldn't** find his toy troll. The apostrophe takes the place of the missing letter *o*.

Use an apostrophe to show possession. Possession means someone or something owns or has something.

When a **noun** does *not* end in *s*, use **apostrophe + s**.

The porcupine belonging to the gremlin = ***The gremlin's porcupine***

The novel owned by the teacher = ***The teacher's novel***

Nouns that *do* end in *s* require more thought. If the noun is *plural*, just attach an apostrophe.

The horns belonging to both gremlins = ***The gremlins' horns***.

The novels owned by the three teachers = ***The three teachers' novels***.

Important:

Never use an apostrophe with possessive pronouns: *mine, his, hers, its, theirs, ours, yours, whose*.

Do not use an apostrophe for capital letters and numbers used as nouns.

Grandpa Gremlin was born in the 1920s.

Gremlins learn their ABCs in kindergarten.

Practice (Place apostrophes where needed in the sentences.)

1. Where is the gremlin baby's pet cricket?

2. Maybe it is under his sister's blanket?

3. The gremlin hid the three boys' pencils under the back table.

Commas With Independent Clauses

An independent clause is also known as a simple sentence. It has a subject and a verb and can stand alone as a sentence.

A comma is needed (along with a coordinating conjunction – for, and, nor, but, or, yet, so) to join two independent clauses to form a compound sentence.

My mom makes cakes, and she sells them to the local bakery.
Gremlins like cake, but they like cupcakes better.

Please note: Another option to join two independent clauses that are closely related is to use a semicolon. This is done **WITHOUT** using a conjunction.

This is the SUPER Semicolon(;). It is stronger than a lone, weak comma (,) because the SUPER Semicolon does not have to use the conjunction! He is STRONG and stands alone when joining two independent clauses.

Examples:

The gremlins went home, **and** they washed their scooter.

The gremlins went home; they washed their scooter.

Practice: Place a comma or semicolon, if it is needed, in the following sentences.

1. Gremlins love to take things apart but they forget how to put them back together.
2. They especially like to take lawn mowers apart and they do this often.
3. After the gremlins finish, the lawn mowers often need repair it can be expensive.

To remember the conjunctions that join two sentences, think of the acronym FANBOYS.

Run-On Sentences

Run-on sentences are sentences that lack punctuation. Many people think run-on sentences are sentences that are way too long, but actually, they can be long or short.

A run-on sentence contains two sentences running together without any punctuation.

Grandpa Gremlin lost his glasses he can't see without them.

There are three ways to correct a run-on sentence.

Make the sentence two separate sentences.

Separate the two sentences with a semicolon.

Separate the two sentences with a comma and conjunction.

Grandpa Gremlin lost his glasses. He can't see without them.

Grandpa Gremlin lost his glasses; he can't see without them.

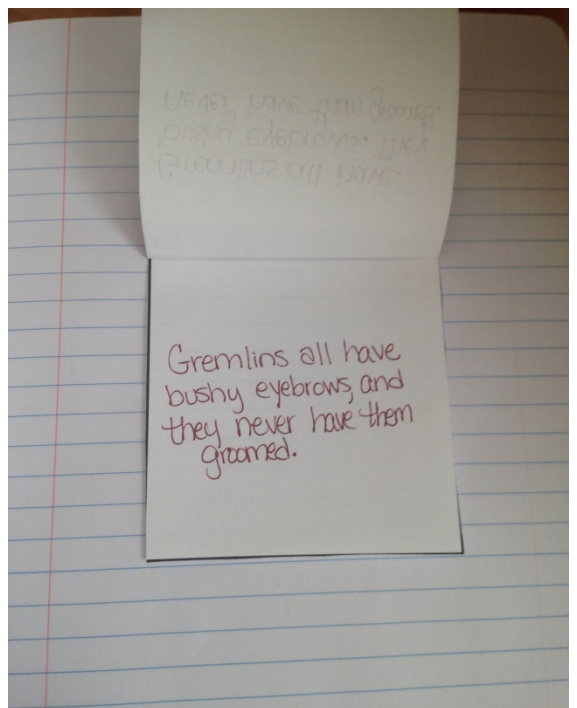

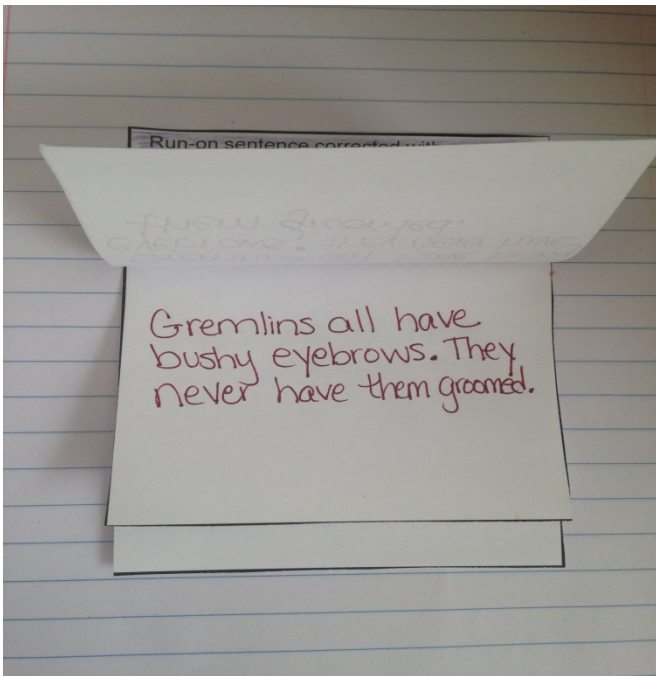

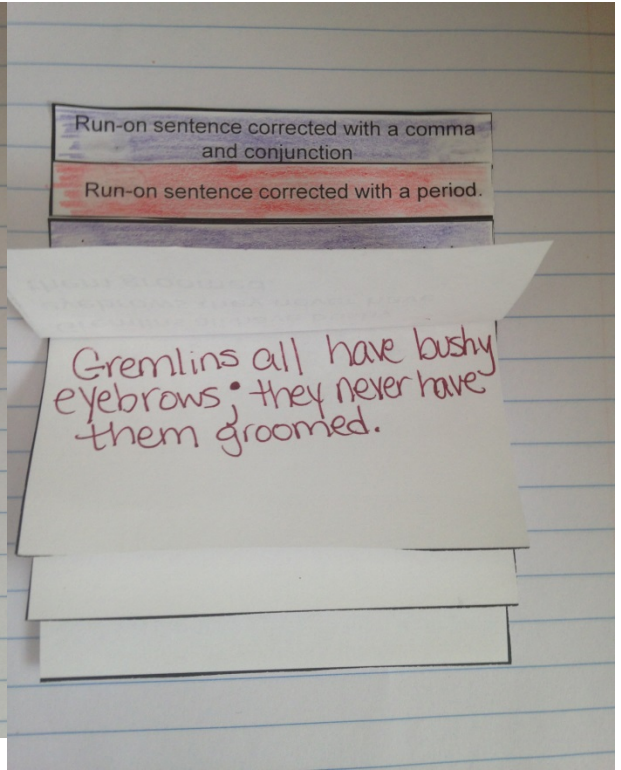

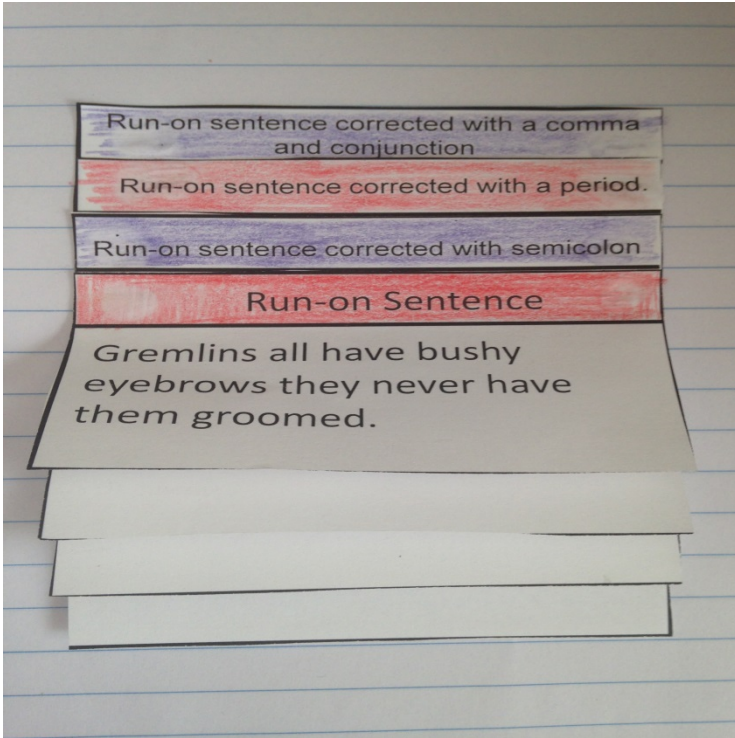

Grandpa Gremlin lost his glasses, and he can't see without them.

Correct the following run-on sentences.

Most gremlins have huge feet this prevents them from falling in small holes.

Gremlins can fit themselves into tiny spaces this is very beneficial to them.

Sentence Fragments

By definition, a fragment is “a piece of something”.

A sentence fragment is a piece of a sentence, but it is not a complete sentence.

A complete sentence must have three things: a subject, a verb, and a complete thought. A fragment lacks one or more of these.

Do not confuse short sentences with fragments. Just because a sentence is short does not make it a fragment.

Gremlins run.

This is a short sentence, but it is not a fragment. It has a subject (gremlins) a verb (run), and it is a complete thought.

Because Gremlins run.

This, however, is a fragment. We are left to wonder *because gremlins run what?* Or, *what happens because gremlins run?*

There is no longer a complete thought.

If you read a sentence that makes you think, “Huh?” you may have a fragment.

You have to be on the watch for fragments because a lot of times, they sound right with surrounding sentences. You must check to make sure every sentence within a paragraph is a complete sentence.

A fragment can usually easily be fixed by attaching words before or after it.

She likes roses. Because they smell so good. Fragment
She likes roses because they smell so good. Corrected

To detect fragments in your writing, try reading your sentences starting at the end of the paragraph. This will make them easier to spot.

Who vs. Whom

- Use the word “who” when you are referring to the subject of a clause.
- Use the word “whom” when you are referring to the object of a clause.
- The following is a mnemonic “trick” you can use to help you choose the right one:

Like the word *whom*, the pronoun *him* ends with the letter *M*. When deciding if you should use *who* or *whom*, ask yourself if the answer would sound right as *him* or *he*. If you would answer the question with *him*, use *whom*. If you would answer the question with *he*, use *who*.

If it is not a question, try turning it into a question and then figuring out whether you would answer it with *he* or *him*.

Examples

- **(Who, Whom) should I invite? I should invite him.** Therefore, the answer is whom.
- **(Who, Whom) gave her those roses? He gave her those roses.** Therefore, the answer is who.
- **The girl (who, whom) I love has such a giving heart.** Who has a giving heart? **He has a giving heart.** Therefore, the answer is who.
 - It doesn't matter that this sentence is about a girl. Remember, the “*he* and *him* trick” is just something to help you choose the correct pronoun. 😊 he= who him=whom
